MIRROR COLLECTION 2023

BARHS Development Journey

BARHS started as a factory focused only on mirror glass cutting, providing processing services for others without our own designs. Under the leadership of our Chairman, Mr. Andy, we began creating our own mirror designs. At first, our mirror frames were made by outside factories, but we often faced quality problems. After many attempts to improve, we realized their quality standards did not match ours. To ensure perfect quality, we built our own frame workshop. Today, all BARHS frames are machine-cut and then hand-welded by our skilled workers. We require every frame to fit tightly with the mirror, stay perfectly straight, and have a flawless metal surface—no scratches or black spots allowed.

For 15 years, BARHS has focused only on mirrors. While competitors may offer more products or cheaper prices, we stay committed to what we do best: creating stylish, high-quality mirrors for people who value design and quality in life.

BARHS Main Products:

BARHS mainly produces stainless steel framed bathroom mirrors, wall-mounted vanity mirrors, decorative mirrors, tabletop makeup mirrors, full-length mirrors, and bathroom mirrors with LED lights. All mirrors can be customized in size, and both the frames and mirrors are available in custom colors. We also support project-based customization.
